ICONICS LICENSE AGREEMENT

YOU SHOULD CAREFULLY READ THE FOLLOWING TERMS AND CONDITIONS!

Opening and using the enclosed software for any purpose indicates your acceptance of the terms and conditions of this license agreement. If you do not agree with them you should return all software, documentation and copy protection keys within seven days of shipment unopened and your money will be refunded.

ICONICS provides this program and licenses its use in the United States, Puerto Rico, or internationally. You assume the responsibility for the selection of the program to achieve your intended results, and for the installation, use and results obtained from this program.

LICENSE

You are granted a personal license to use this program under the terms stated in this Agreement. You may: 1) Install and use the program on a single machine; and 2) make a single archival back-up copy of the program for the sole purpose of supporting your use of the single program on a single machine. You may not copy, translate, modify or adapt the program, or any portion thereof, or incorporate it, in whole or any part, in any other product, create derivative works based on the program, or any portion thereof, or license others to reproduce any copies of the program, or any portion thereof, and you may not decompile, disassemble or reverse engineer the program, or any component thereof except as permitted by law, and then only after having prior requested in writing from **ICONICS** any interoperability information you are attempting to obtain.

TERM

The license is effective until terminated. It will terminate if you fail to comply with any term or condition of this Agreement. You agree, upon such termination, to destroy the program and all copies that were made from it and to promptly return any copy protection key(s) to **ICONICS**.

LIMITED WARRANTY

ICONICS WARRANTS THE CD-ROM, DVD OR PHYSICAL DISKETTES, ON WHICH THE PROGRAM IS FURNISHED, AND PHYSICAL DOCUMENTATION TO BE FREE OF DEFECTS IN MATERIALS AND WORKMANSHIP UNDER NORMAL USE FOR A PERIOD OF NINETY (90) DAYS FROM THE DATE OF DELIVERY TO YOU AS EVIDENCED BY YOUR RECEIPT. THIS PROGRAM IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE ENTIRE COST OF ALL NECESSARY SERVICING, REPAIR, OR CORRECTION.

ICONICS SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO, IMPLIED WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN PARTICULAR, WITH RESPECT TO ANY PARTICULAR APPLICATION, USE OR PURPOSE, IN NO EVENT SHALL **ICONICS** INC. BE LIABLE FOR ANY OTHER COMMERCIAL DAMAGE, INCLUDING BUT NOT LIMITED TO SPECIAL, INCIDENTAL, CONSEQUENTIAL OR OTHER DAMAGES. **ICONICS** DOES NOT WARRANT THAT THE FUNCTIONS CONTAINED IN THE PROGRAM WILL MEET YOUR REQUIREMENTS OR THAT THE OPERATION OF THE PROGRAM WILL BE UNINTERRUPTED OR ERROR FREE.

LIMITATION OF REMEDIES

ICONICS' entire liability and your exclusive remedy shall be the replacement of any CD-ROM, DVD or diskette not meeting **ICONICS'** "Limited Warranty" which is returned to **ICONICS** with a copy of your receipt within the warranty period. The remedy for breach of this warranty shall be limited to replacement and shall not encompass any other damages including but not limited to loss of profit, special, incidental, consequential, or other similar claims arising out of the use or inability to use such program even if **ICONICS** has been advised of the possibility of such damages, or for any claim by any other third party.

GENERAL

This Agreement will be governed by the laws of the Commonwealth of Massachusetts. Should you have any questions concerning this Agreement, you may contact **ICONICS** in writing at:

ICONICS, Inc.
100 Foxborough Boulevard
Foxborough, MA 02035

You acknowledge that you have read this Agreement, understand it and agree to be bound by its terms and conditions. You further agree that it is the complete and exclusive statement of the Agreement between you and **ICONICS** which supersedes any proposal or prior Agreement, oral or written, and any other communications between you and **ICONICS** relating to the subject matter of the Agreement.

ICONICS RETURN POLICY

All sales are final (NO RETURNS) unless one of the following conditions is applicable: Program is returned in its original packaging material within 7 days after shipment. In such a case, a full refund is provided, less all incurred shipping and handling costs. Program is returned within 30 days from the original shipment date. In such a case a 20% restocking fee is applicable. No returns are allowed on OPC ToolWorX or ActiveX ToolWorX. All returns must have an appropriate RMA number.

EXPORT COMPLIANCE

You agree to comply with the United States of America's current Export Administration Regulations (EAR) and agree that you will not distribute or supply this product in violation of the EAR. You are responsible for securing any export approval or license as may be needed under the EAR. Additionally, you are responsible for obtaining local customs clearance as applicable and paying all duties, taxes and other charges.

1 MOBILEHMI OVERVIEW

1.1 Introduction

In an increasingly web-connected environment operators from many industries have begun benefiting from mobile applications aimed at providing optimized operational experiences for everyday tasks. Expectations of software companies have centered on providing limitless access to information over wired, wireless and cellular connections. Due to this trend and the advance of mobile technologies, ICONICS has responded by completely renewing the MobileHMI product that is now available on the major providers of mobile devices – Microsoft, Apple, Amazon and Google – ICONICS MobileHMI is a full HMI/SCADA client on any device.

Spanning desktops, tablets and phones, ICONICS products have always been centered on visualization of data. With MobileHMI, tablets and phones now include a fully featured mobile client designed for operations on the go. With configuration enhancements meant to simplify development of screens for mobile users, it is easier to provide a clean experience on all devices without incurring the extra cost of development time. Additionally, preconfigured templates and the ability to target specific devices with displays makes MobileHMI ready to handle any composition of devices.

MobileHMI addresses the growing need for connectivity away from operator stations which allows personnel to access information from anywhere reducing the time it takes for issues to be recognized and fixed. The availability on all devices with consistent experiences also serves to unify efforts to mobilize operational teams without requiring upfront investment in device standardization.

Built on Industry Open Standards

Using ICONICS' Platform Services, MobileHMI is built on universal connectivity, allowing users to connect to system data from anywhere in the world. Native implementations of connectivity protocols allow MobileHMI to provide an unparalleled view of a wide variety of data types.

Instant KPIs and Alerts

Instantly receiving KPIs and alerts day or night on your mobile device allows you to be informed 24/7. This enables managers to monitor performance metrics in real time and operators to receive updates on-the-go.

Quick Deployment to Any Device

Deployment is instant after downloading the free app, allowing remote monitoring of your enterprise immediately. Devices can include Microsoft Surfaces, Windows 8 Phones and tablets, Apple iPads and iPhones, Amazon Kindle tablets, and Android phones and tablets.

Dazzling Graphics, Alarms, Trends, Charts and Grids

With mobile optimized alarms and assets (categorized by importance), quickly view your top priority alarms and act faster with better information. Accessing the high-powered .NET graphical controls from any device reduces engineering time of mobile-ready displays and utilizes small screen sizes efficiently.

Overlay Real-time Data on Detailed Maps

Along with the real time data collected, implement mapping (integrated with Google, Bing, and ESRI map data) to show moving or geographically dispersed assets. Contextualize data into easy-to-comprehend information by positioning interactive assets virtually on a map.

Easily Design HMI Displays for Multiple Devices

Using GraphWorX64, create single displays that scale dynamically for any device, form factor or resolution. Vector graphics scale seamlessly allowing content created for one device to be resized for another without losing quality.

Standardized on ISA-95 Asset Navigation and Organization

Creating and navigating assets is easy using the ISA-95 organization. Allowing users to drill down for more data, the ISA-95 Asset Navigation can provide easy access to real world assets, as well as integrate commands to control their application.

Smart Tiles with an Intuitive Interface

ICONICS enables many natural user interface-based productivity features delivered by the latest smart devices. Smart Tiles are similar to Microsoft's Live Tiles, but can be used within HMI displays on multiple devices.

Remote Monitoring of Critical Infrastructure

Remote monitoring with this application is ideal for industries such as Water & Wastewater, Wind, Solar and Renewable Energy, Process Manufacturing, Pharmaceuticals, Biotech, Oil & Gas and Electric Utilities. Remote Monitoring is also useful for management scorecards and Data Centers.

Ideal for Operators, Executives and Maintenance

This mobile solution allows operators to stay informed, even while traveling, by viewing assets with navigation. Executives can visualize business performance and improve enterprise-wide communications. With real-time updates and information delivered through remote monitoring, maintenance is easier than ever to plan and schedule.

KPIWorX Self-Service Dashboards

KPIWorX allows for the creation, saving and loading of dashboards, providing a user-friendly interface. Users can drag and drop data, configure widgets, split screens to add new widgets and save dashboards into a Favorites location. KPIWorX is accessible through MobileHMI as well as within GraphWorX64 (which can handle more complex displays).

KPIWorX contains several preconfigured widgets, such as gauges, process points, trends, alarms and grids. Primarily a mobile feature, all new functionality is also available on the desktop.

Augmented Reality – Location Services

Location Services are a group of Augmented Reality MobileHMI features that allow displays to automatically load and display data based on the users' location and proximity to devices and meters. These services include QR codes, barcodes, NFC, OCR and GPS.

2 **SYSTEM REQUIREMENTS**

MobileHMI has the following minimum system requirements which your systems must meet before you can install MobileHMI.

Before installing any products please make sure you have the correct prerequisites installed.

ICONICS Suite

ICONICS advanced visualization, productivity, and sustainability solutions are built on its flagship products: GENESIS64™ HMI/SCADA, Hyper Historian™ plant historian, AnalytiX® solution suite and MobileHMI™ mobile apps. ICONICS is leading the way in cloud-based solutions with IoTWorX™, which helps customers embrace the Internet of Things (IoT) and Industry 4.0. This end-to-end software solution provides remote cloud monitoring and analytics via low-cost IoT gateway devices. Delivering information anytime, anywhere, ICONICS solutions scale from the smallest standalone embedded projects to the largest enterprise applications.

ICONICS System Requirements vary between:

- **Minimum Requirements**
- **Medium-powered Requirements**
- **High-powered Requirements**

System Requirements - Minimum Requirements**CPU**

Dual Core 64-bit processors (e.g., AMD Athlon 64 X2, Intel Xeon, and AMD Phenom)

Memory

4 GB of RAM is required (6 GB Recommended)

Note: It is recommended that the system page file size be a minimum of four (4) times the size of installed (physical) RAM.

Note: It is recommended that the virtual memory allotment be two times the amount of physical memory (RAM) on the system.

Hard Disk

At least 4 GB free hard disk space is required (10 GB Recommended)

Drive

DVD Drive for Installation

Video Card

Onboard Video Memory (256MB) Display resolution minimum - 1024x768, 32-bit color

DirectX 9 or 10 Video Card or better

Operating System

- Windows 10 x64 (Pro or Enterprise Edition)
- Windows 8.1 x64 (Pro or Enterprise Edition)
- Windows 7 SP1 x64 (Professional or Enterprise Edition)
- Windows Server 2019
- Windows Server 2016 x64

- Windows Server 2012 R2 x64
- Windows Server 2012 x64

Note: Windows 10 Anniversary Update is required for MobileHMI UWP app.

Note: Server-class operating system highly recommended for web hosting and AnalytiX features.

.NET Framework

Microsoft .NET Framework 4.7.2

Web Server/Access

Microsoft Internet Information Services (IIS) 7.0 or higher

Edge, Internet Explorer, Firefox, Safari, or Chrome

SQL Server

- Microsoft SQL Server 2019
- Microsoft SQL Server 2017
- Microsoft SQL Server 2016
- Microsoft SQL Server 2014
- Microsoft SQL Server 2012 R2

Notes:

- The connection to SQL Server data source may be either local or remote.
- ICONICS supports SQL databases with encryption.

System Requirements - Medium-powered Requirements**CPU**

Quad Core 64-bit processors or better (e.g., AMD Athlon 64 X2, Intel Xeon, and AMD Phenom)

Memory

8 GB of RAM or higher

Note: It is recommended that the system page file size be a minimum of four (4) times the size of installed (physical) RAM.

Note: It is recommended that the virtual memory allotment be two times the amount of physical memory (RAM) on the system.

Hard Disk

At least 4 GB free hard disk space is required (10 GB Recommended)

Drive

DVD Drive for Installation

Video Card

Onboard Video Memory (500MB) Display resolution minimum - 1024x768, 32-bit color

DirectX 9 or 10 Video Card or better

Operating System

- Windows 10 x64 (Pro or Enterprise Edition)
- Windows 8.1 x64 (Pro or Enterprise Edition)
- Windows 8 x64 (Pro or Enterprise Edition)
- Windows 7 SP1 x64 (Professional or Enterprise Edition)

- Windows Server 2019
- Windows Server 2016 x64
- Windows Server 2012 R2 x64
- Windows Server 2012 x64

Note: Windows 10 Anniversary Update is required for MobileHMI UWPApp.

Note: Server class operating system highly recommended for web hosting and AnalytiX features.

.NET Framework

Microsoft .NET Framework 4.7.2

Web Server/Access

Microsoft Internet Information Services (IIS) 7.0 or higher

Edge, Internet Explorer, Firefox, Safari, or Chrome

SQL Server

- Microsoft SQL Server 2017
- Microsoft SQL Server 2016
- Microsoft SQL Server 2014
- Microsoft SQL Server 2012 R2
- Microsoft SQL Server 2008 R2 SP1

Notes:

- The connection to SQL Server data source may be either local or remote.
- ICONICS supports SQL databases with encryption.

System Requirements - High Powered Requirements**CPU**

Quad Core 64-bit processors or better (e.g., AMD Athlon 64 X2, Intel Xeon, and AMD Phenom)

Memory

16 GB of RAM or higher

Note: It is recommended that the system page file size be a minimum of four (4) times the size of installed (physical) RAM.

Note: It is recommended that the virtual memory allotment be two times the amount of physical memory (RAM) on the system.

Hard Disk

At least 4 GB free hard disk space is required (10 GB Recommended)

Drive

DVD Drive for Installation

Video Card

Onboard Video Memory (1GB) Display resolution minimum - 1920x1080, 32-bit color

DirectX 9 or 10 Video Card or better

Operating System

Windows 10 x64 (Pro or Enterprise Edition)

Windows 8.1 x64 (Pro or Enterprise Edition)

Windows 8 x64 (Pro or Enterprise Edition)

Windows 7 SP1 x64 (Professional or Enterprise Edition)

Windows Server 2019

Windows Server 2016 x64

Windows Server 2012 R2 x64

Windows Server 2012 x64

Note: Windows 10 Anniversary Update is required for MobileHMI UWP app.

Note: Server class operating system highly recommended for web hosting and AnalytiX features.

.NET Framework

Microsoft .NET Framework 4.7.2

Web Server/Access

Microsoft Internet Information Services (IIS) 7.0 or higher

Edge, Internet Explorer, Firefox, Safari, or Chrome

SQL Server

Microsoft SQL Server 2017

Microsoft SQL Server 2016

Microsoft SQL Server 2014

Microsoft SQL Server 2012 R2

Microsoft SQL Server 2008 R2 SP1

Notes:

1. The connection to SQL Server data source may be either local or remote.
2. ICONICS supports SQL databases with encryption.

NOTE: The requirements described above are based on typical applications. Depending on your specific application, the minimum requirements may vary.

Optional Hardware

- Ethernet adapter, WiFi card, or cellular 3G/4G
- USB port (for hardware license)
- Serial COM ports or other adapters (for data I/O)

Uninstalling

It is recommended by ICONICS to use Add/Remove Applications from Control Panel to uninstall the applications. Since applications are registered in the registry, Add/Remove uninstalls the product and makes the required registry changes for you.

If you uninstall some common components that are used by the product, you may be required to register those components again or simply reinstall the product.

NOTE: Do not delete the files and directories manually; doing so will leave the registry entries intact and interfere with future installations. Please use the uninstall feature of the operating system!

3 **INSTALLING MOBILEHMI**

The following steps detail the MobileHMI system installation.

MobileHMI's installation uses a standard InstallShield installer to provide you with options for installing components, adding new or existing users, configuring the database engine that you use and the size of the tables that are created, and more.

Warning: Prior to installation, verify that the system meets minimum hardware and software requirements, as described in the System Requirements section. Installation will abort if the minimum requirements are not met.

Note: You cannot install any 10.8x product from Remote Desktop when using a shared drive. In such instances, it is suggested that you copy the installation's sources to a local drive or share the drive via Windows networking rather than via Remote Desktop.

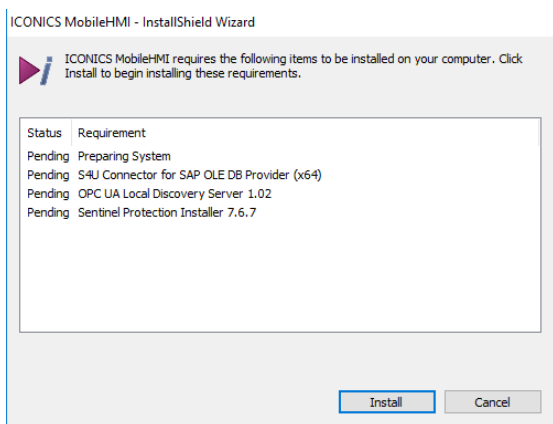

Important Note: Uninstall previous versions of MobileHMI before installing the latest version of MobileHMI.

3.1 Starting the Installation Process

Note: Installations of Internet Information Services differ depending on the operating system, but can be found in the Server Manager under Roles in Windows Server 2012 and should be turned on.

To Install MobileHMI:

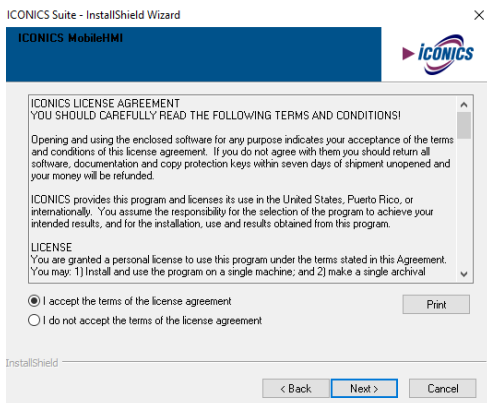

1. Insert the installation DVD into your optical drive and the installer will open if auto start is operating correctly; if not, open the DVD drive window and double-click the **Default.hta** file icon. Select "MobileHMI Installation".
2. When the Prerequisites Installer Dialog appears, choose 'Install'. This installs everything needed for running MobileHMI. If you don't have installed SQL Server 2014 locally, a prompt appears to install it. (You can choose **No** if you use an older version of SQL Server, or you plan to use a remote SQL Server)

3. In the Welcome Dialog, click the **Next** button to view the License Agreement step.

4. Read the License Agreement. If you agree, click the “**I accept the terms of the license agreement**” radio button. Then click **Next** to continue.

5. Read the license, and select “**I accept the terms in the license agreement**”. Click **Next**. You can proceed with the installation only after accepting the terms.
6. In the Setup Type Dialog that appears, select the type of setup you wish to perform. Select from either **Custom** or Typical.
 - **Typical** installation installs all of the components of MobileHMI (This requires more disk space).
 - **Custom** installation allows you to pick the components to be installed.

Since the Setup procedure varies slightly depending on the installation type you choose, the installation of each is described fully in the two sections that follow. Refer to “Typical Installation” below, or “Custom Installation” later in this section.

7. In the **Logon Information Dialog**, you can choose to use either a local machine account or a domain security account, as well as create a new user or use an existing user account.

3.2 Typical Installation

Typical installation is meant to install all of the MobileHMI applications and tools. This creates all of the supporting databases.

You need to provide the correct database connection and logon information. Once those steps are completed, the installation does not require as much of your attention.

If you are installing MobileHMI on a system that has a previous version of ICONICS products already installed, uninstall the older version before installing MobileHMI. If you have uninstalled a previous version, Setup leaves the database files intact on your system for you to use at a future date. Typical installation asks you if you want to overwrite or leave the supporting database files.

To Perform a Typical installation:

1. Click the Typical radio button in the Setup Type dialog box pictured above. Setup evaluates your system for compliance with the requirements, and then posts a confirmation dialog box.
2. Click the Install button to begin the MobileHMI User Setup Wizard. Then click the Next button to start the wizard.
3. The Typical installation now asks you if you'd like to install the GenDemo (which includes sample displays, examples and tutorials) to get you up and running. Select this option if desired and click Next. At this time additional components are installed automatically.

4. The Logon Information screen appears. Enter the requested user name/password info. Then click **Next**.

Note: From the Logon Information Dialog, you can choose to use either a local machine account or a domain security account, as well as create a new user or use an existing user account.

ICONICS Suite - InstallShield Wizard

ICONICS MobileHMI

Specify the user account to be used by this application. User accounts must be in the format DOMAIN\Username.

User name:
 Browse...

Databases Creation

☐ Use Active Databases (NA)
☐ Silent Configuration
☒ Include all Samples
☐ Overwrite all Databases
☐ Use Unified Database
Database Prefix:

InstallShield

< Back Next > Cancel

Use Active Databases – Databases from previous installations of MobileHMI are attached to this installation.

Silent Configuration – Databases are installed with selected settings, and there won't be additional dialog with advanced database setting.

Include all Samples – Installs sample data that you can experiment with.

Overwrite all Databases – Overwrite older Databases.

Use Unified Database – Installs all configuration in one unified database.

Enable Project Reporting – Enables and sets up Project Reporting on SQL server if possible (Project Reporting is supported on SQL 2008 R2 and higher).

- The **System Setup** Dialog appears. You can either leave the **Include all samples** checkbox enabled, (in order to install sample data that you can experiment with) or disable this checkbox to install blank tables. Advanced configuration allows settings for additional sizing options on the database and log files. You can enable Unified database (one database that contains all the configurations) and enable Overwrite all (overwrite all existing databases), or you can use Upgrade to automatically upgrade all database configurations.

System Setup

Configuration Settings

☐ Install all configurations in one unified database

Database Prefix:

☒ Include samples in all configurations

☐ Overwrite all configurations

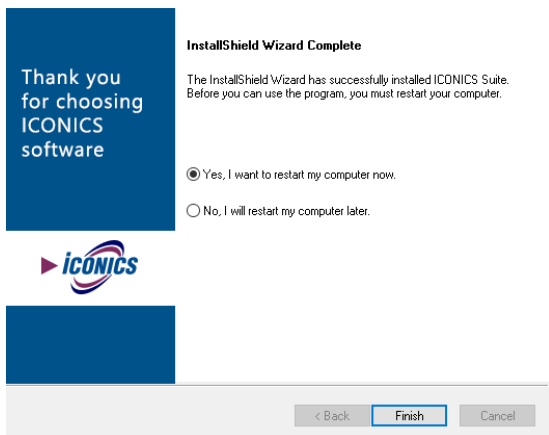

☐ Upgrade automatically all configurations

Available Configurations

	Database Name	Configuration Type	Samples	Overwrite	Upgrade	Options
▶	AlertConfig	AlertWorX	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Initial Size: 10, M... <input data-bbox="854 1212 875 1228" type="button" value="..."/>
	AssetWorX	Assets	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Initial Size: 10, M... <input data-bbox="854 1236 875 1252" type="button" value="..."/>
	AwxLogger	AlarmWorX64 Logger	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Initial Size: 10, M... <input data-bbox="854 1260 875 1276" type="button" value="..."/>
	AwxServer	AlarmWorX64 Server	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Initial Size: 10, M... <input data-bbox="854 1284 875 1300" type="button" value="..."/>
	BACnet	BACnet	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Initial Size: 10, M... <input data-bbox="854 1308 875 1324" type="button" value="..."/>
	BiConfig	BI Server	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Initial Size: 10, M... <input data-bbox="854 1332 875 1348" type="button" value="..."/>

7. Click the **Install** button to continue the installation.
8. After completing the installation, the Wizard Completed dialog box appears.
Click the **Finish** button.

ICONICS Suite - InstallShield Wizard

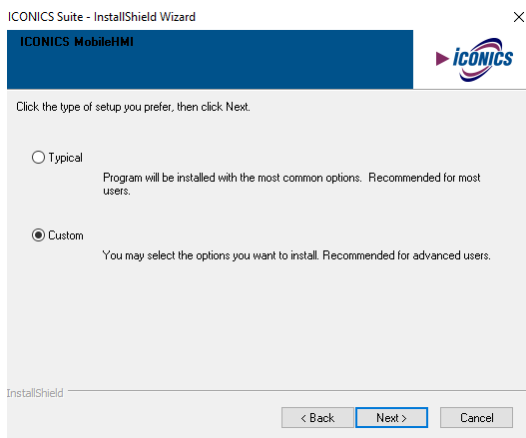

Note: If the installation lags, check to see that there aren't any alert boxes that require your dismissal prior to completing the installation.

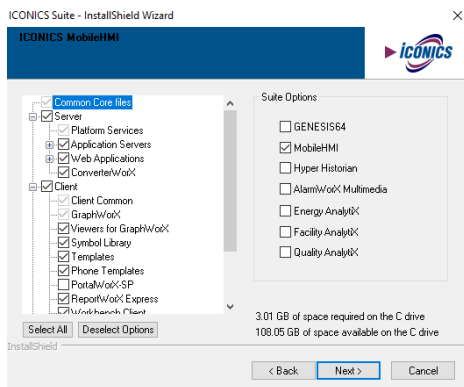

3.3 Custom Installation

Custom installation varies slightly from the Typical installation, in that it allows you to select the components you wish to install manually.

1. Select the **Custom** Installation Setup Type.

2. You are prompted to select the Destination Location.
Specify the destination by selecting Browse, or select Next if the default location is correct.
3. Click the checkboxes to install your selected components.

4. Click the **Install** button to continue the installation.
5. In the Database Server Dialog, you can select local or remote database together with database settings and authentication. The server is secured under this database.

InstallShield

< Back Next > Cancel

Use Active Databases – Databases from previous installations of MobileHMI are attached to this installation.

Silent Configuration – Databases are installed with selected settings. There will not be additional dialogs with advanced database settings.

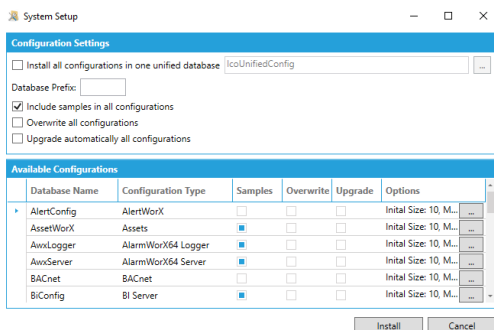

Include all Samples – Installs sample data that you can experiment with.

Overwrite all Databases – Overwrites older Databases.

Use Unified Database – Installs all configuration in one unified database.

Enable Project Reporting – Enables and sets up Project Reporting on SQL server if possible (Project Reporting is supported on SQL 2008 R2 and higher).

6. The **System Setup** Dialog appears. You can either leave the **Include all samples** checkbox enabled, (in order to install sample data that you can experiment with) or disable this checkbox to install blank tables. Advanced configuration allows settings for additional sizing options on the database and log files. You can enable Unified database (one database that contains all the configurations) and enable Overwrite all (overwrite all existing databases), or you can use Upgrade automatically, to upgrade all database configurations (existing databases will be automatically upgraded to the newest version).

7. Click the **Install** button to continue the installation.
8. After completing the installation, the Wizard Completed dialog box appears. Click the **Finish** button.

3.4 Uninstalling MobileHMI

The MobileHMI software can be uninstalled (removed) from the system. It is recommended that you back up all of your project-related files before uninstalling. If your operating system requires a login, you must log in with administrator capability to uninstall. Uninstalling MobileHMI Software (or its components) does *not* uninstall the Licensing software. Your valid license will remain activated on your PC.

It is recommended by ICONICS to use Add/Remove Applications from Control Panel to uninstall the applications. Since applications are registered in the Registry, Add/Remove uninstalls the product and makes the required Registry changes for you. If you uninstall some common components that are used by the product, you may be required to register those components again or simply reinstall the product.

Uninstalling MobileHMI:

1. From the Windows **Start** menu, select **Settings > Control Panel**.
2. Double-click **Programs and Features**.
From the list of programs that you can remove, select **ICONICS MobileHMI**.
3. Click **Change/Remove or Uninstall** to remove MobileHMI and all of its components.
4. Select **Remove**, and then click the **Next** button.
When the files are removed, the uninstall program will indicate that the process is complete.

Note: Do not delete the files and directories manually; doing so leaves the Registry entries intact and interferes with future installations. Please use the uninstall feature of the operating system.

4 **ICONICS SOFTWARE LICENSING**

4.1 **Software and Hardware Keys**

AnalytiX licensing is handled by a *software key license registration system* that does not require a hardware protection key. However, ICONICS does offer an optional *hardware key* which you can purchase.

4.1.1 **Software Licensing**

The software key is a licensing key that resides on the hard drive of a computer. Each software key is used on a single, specific computer and is used only once. It is activated using a Site Key (license file) that is tied to the computer that is being licensed.

An activated license is required to use the software in full production mode. This license designates which products may be used, as well as the I/O point-count limit that controls the number of active data points (tags) that can be used by a system.

For important details about registering and activating software licenses for your AnalytiX installations, refer to the **ICONICS .NET Licensing Readme.htm** file, which is available on your AnalytiX installation DVD (and as a link from the disc's Info Center).

4.1.2 **Hardware Key**

The optional hardware key is a USB thumb drive (or flash drive) that you can move from system to system. AnalytiX recognizes the hardware key on the system you have the key attached to. A hardware key is easier and is a more reliable way of moving a license from one machine to another than a software key.

Upon insertion of the USB key into an available USB port, the necessary drivers are automatically loaded. A green status light will illuminate upon successful connection.

Should the USB key be missing or unplugged during operation of AnalytiX software, plug the USB key back in either within an hour of removal or upon system reboot; otherwise the hardware-based license will not be immediately recognized.

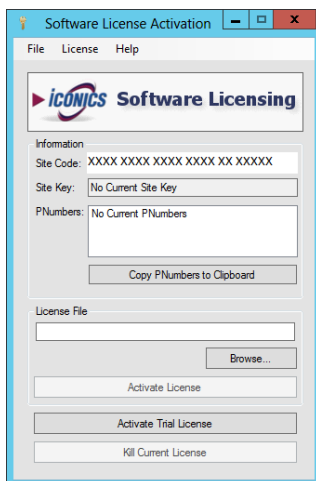

Should you require a replacement key, visit <http://www.iconics.com/supportworx>. New users must create an account through the ICONICS Web Licensing Utility in order to request replacement keys.

4.2 Licensing Utility

The Software Licensing Utility provides full authorization for use to any purchased AnalytiX product and its available options.

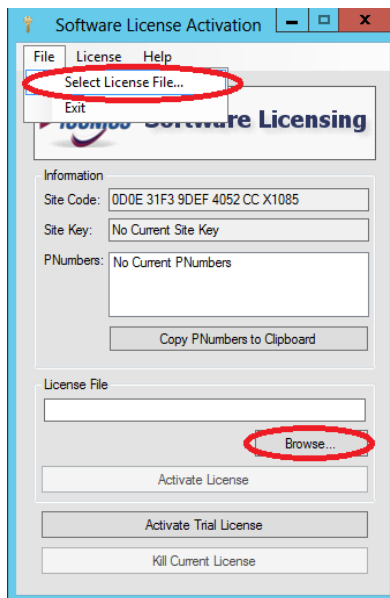

4.2.1 Running the Licensing Utility

To launch the License Utility from the Windows **Start** menu, select **Programs > ICONICS .NET Licensing > Licensing Utility**.

4.2.2 License File

Once you have opened the Software Licensing Utility, you can browse for the Site Key (License File) itself. Either click on the **Browse...** button in the License File section of the window **OR** click on **File** in the top menu, then **Select License File....**

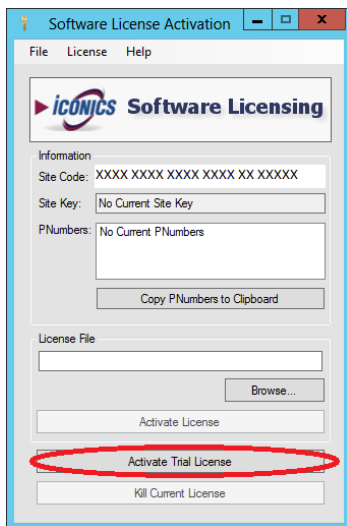

This brings up the Windows Explorer so that you may browse for the License File itself. Once you have located the file, double-click it or click **Open** to proceed.

4.2.3 Activating the 30-day Trial/Emergency License

Within the Licensing Utility (Software License Activation for .NET) dialog box, you can click on the **Activate Trial License** box to initiate a 30-day trial/emergency license.

NOTE: This license can be activated only once per machine.

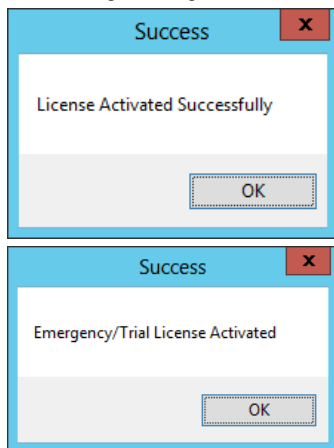

You will then see a warning about proceeding with activating the 30-day trial/emergency license. Click **Yes**, should you wish to proceed.

You will then see an additional warning confirming that you understand that enabling the trial license will invalidate any other software license that is currently active on the machine. Click **Yes** should you wish to proceed.

Once the 30-day trial/emergency license has been enabled, you will see the following messages:

The PC will then be authorized to run for a one-time only, 30-day backup period. The PC can be fully authorized at any time during or at the conclusion of this temporary backup period. Clicking **No** in the initial windows returns you to the Licensing Utility (Software License Activation for .NET) dialog box and preserves the existing license.

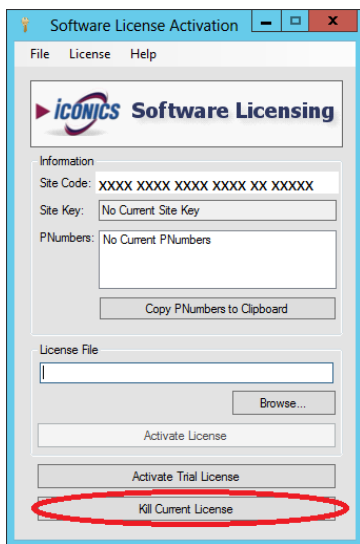

Note: Temporary backup license authorization is intended for urgent backup situations only. Clicking OK invalidates the existing license and activates a temporary backup authorization, permanently overwriting any existing license. Thus, please use caution when activating a temporary backup license authorization.

4.2.4 Killing a Software Key License

Killing a software key license deletes it and removes the current software license from the machine.

To Kill or Delete the Existing Software License:

1. Select **Kill Current License** within the Licensing Utility (Software License Activation for .NET) dialog box. Using this option, you can remove the current software license from the current machine.

A warning message appears on the screen as shown in the figure below.

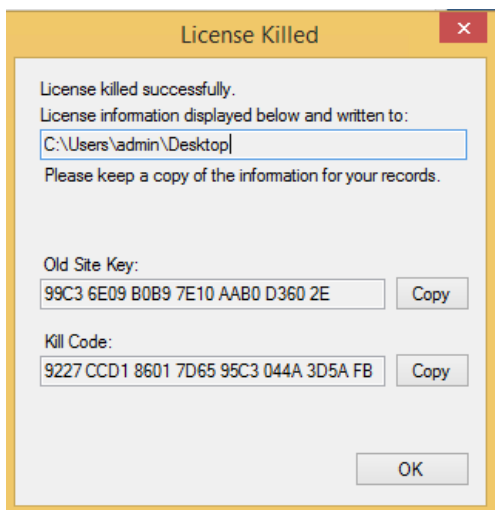

IMPORTANT: If you kill your license, you need to get a new license from ICONICS to restart your AnalytiX product.

2. Click **Yes** to continue, or click **No** to exit. Clicking **Yes** displays one of the following warning messages.

If you are killing a *trial* or *emergency* license, once you click **Yes** you are done.

Note: A trial or emergency license cannot be credited back to the web-based License Generator using the Kill Code.

If you are killing a *permanent, registered* license, after you click **Yes**, the following warning message appears. Notice that the message lists the old Site Key, and a Kill Code. It also lists a .TXT file that has been written to the PC's desktop; the file name begins with "KillCode". This file contains the old Site Key and Kill Code that are listed in the message.

3. Click **Yes** to copy the Kill Code to the Windows Clipboard so that you can paste it elsewhere, such as in an email to ICONICS Support or on the ICONICS Web Licensing Utility. If you don't need to copy the Kill Code at this time, click **No**.
4. Look on the desktop for the KillCode*.TXT file. **Keep this file, and copy it to a safe location!** You will have to use the information it contains to confirm that you have killed your license (via either the ICONICS Order Entry Department or the ICONICS Web Licensing Utility).
5. Proceed with the online steps described in **4.4.3.1 "Killing a License via the ICONICS Web Licensing Utility"**

Note: To reinstate a permanent license that you killed, you will need to provide the KillCode*.TXT file to ICONICS.

Note: If you uninstall the Software License Utility, the KillCode*.TXT file will be deleted. For this reason, make sure you copy the KillCode*.TXT file to a safe location or be sure to note or print its content before uninstalling the Software License Utility on the PC. [* = Site Key that was killed.]

4.3 License Viewer

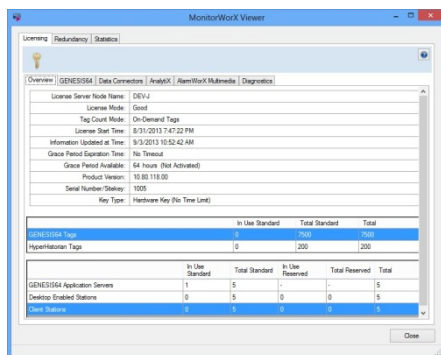

When you purchase licenses, the licenses are measured in a point count that determines the number of OPC tags that you can use in your application. One point count is used for most AnalytiX applications. There are two different modes for using tags in point counts:

- On-demand mode. A system for dynamically using licensed points, and then reusing the points as needed. The count at any instance includes only active points in use.
- Configure mode. A system in which all points are statically configured in a static central location, inside the Unified Data Manager. All configured points are counted against the point count.

The two mode types are not interchangeable and require you to buy a new license to upgrade your existing license status.

At any time, you can use the License Viewer to review the license status of ICONICS products installed on that computer. You can access the License Viewer by:

- From the Windows desktop: click **Start > All Programs > ICONICS Licensing > ICONICS .NET Licensing > MonitorWorX Viewer**.
- From the Workbench: from the **Tools** ribbon click the **Licensing** button. Or from the **File** menu, select **Tools**, and then **Licensing**. The License Viewer displays as shown in the following image.

The tab that displays initially is the **Overview** tab, where you can see general information about the license for the server that the node points to. You can view license information for **GENESIS64**, **AnalytiX**, **Data Connectors**, **BizViz products (under the AnalytiX tab)**, and **AlarmWorX Multimedia** product features by using the tabs for those products. To locate the nodes where individual product features are consuming the server's license counts, use the **Diagnostics** tab.

4.4 Web Licensing

You can use the ICONICS Web Licensing Standard Utility to generate a new license, kill a license and transfer a license. One function of the ICONICS Web Licensing Utility is to use it to upgrade your license.

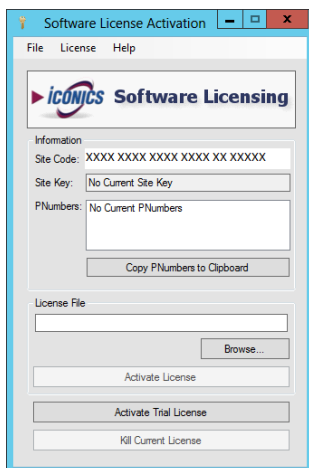

Supported operating systems for using the ICONICS Web Licensing Utility to upgrade your license include Windows 8 x64 (Professional or Enterprise Edition), Windows 7 x64 (Professional, Ultimate, or Enterprise Edition), Windows Server 2008 R2 x64, Windows Vista x64 SP2 (Business, Ultimate, or Enterprise Edition), Windows Server 2008 x64 or Windows Server 2003 x64. Using the utility will require Internet access and a web browser (e.g. Internet Explorer 6.0 and up).

4.4.1 Acquiring a New Software License

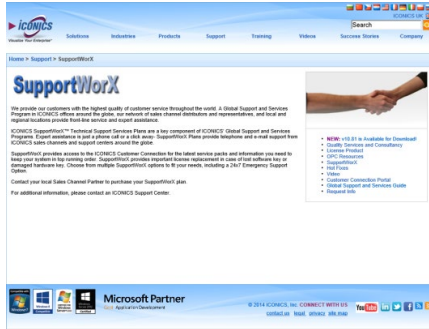

Users of ICONICS software can use the ICONICS Web Licensing Utility to acquire a new software key license.

4.4.1.1 Issuing a New Software License

1. On the machine where you want the AnalytiX license to reside, open the License Utility by going to **Start -> Programs -> ICONICS Licensing -> ICONICS .NET Licensing -> Licensing Utility**. This should open the Software License Activation for .NET window.
2. You will see a dialog come up with a Site Code and “No Current Site Key” within the Site Key text box. Leave this window open.

- Go to <http://www.iconics.com/supportworx> and launch the Web Licensing Utility Site by clicking on the “License Product” link on the right side of the page.

Or, from ICONICS website (<http://www.iconics.com>), select “License Your Product” from the bottom-right Customer Connection area.

- The main page of the Web Licensing Utility will load. Click on the “Software” button to access the Software License Options.

5. You will be required to log in to access the Software License Options. Enter your email address and password and click on the “LOGIN” button. If you do not yet have an account, you can create one by clicking on the “Create New Account” link near the bottom of the page.

6. Once you have logged into the website, click on the “New License” link in the top navigation bar.
7. Enter your Product Registration Numbers and Customer Keys for the products to license, then click “Next”.

NOTE: Your Product Registration Number and Customer Key are usually inside the DVD package that ICONICS sent to you.

Product Registration #	Customer Key
G79568919	CU502256

8. In the next screen, you will be requested to identify the end user for whom the license is being issued. You can look up a list of users that have been previously entered by clicking on the “Existing End Users” link or can enter a new one by clicking on the “Create New” link.

9. Clicking the Existing End Users link will open a new window with a list of previously entered end users (either entered by you or tied to the product registration numbers entered in the previous screen). Select an end user from the list and click “Select” or double-click the selected end user. If you, yourself, are the end user and you are not listed in the grid, you can click on the “I am the End User” link to enter your data as the new end user. After identifying the end user, click on “Next”.

10. In the next screen, you will see a list of the products that are available for you to license. Check all the products that you would like to license. Copy the Site Code from the license utility of the destination machine and paste it into the Site Code box of the current web page, then click on "Next".

Home > Software License > New License

New License

Below are the product(s) that you have purchased and that have not yet been assigned a Site key.

To register product(s) to a specific system, do the following:

1. Enable the check box(es) next to the product name(s) that you would like to assign.
2. Enter the site code into the Enter Site Code text box.
The Site Code can be found in the ICONICS License Utility. Select the Authorize License command from the Actions menu to view the Site Code.
3. Click the Next button to continue.

Select	Product Key	Product Description	RegNo
<input checked="" type="checkbox"/>	BIZVZ-SP V8 C12	12 MONTH CONSIGNMENT LICENSE FOR V8 BIZVZ	G795668919
<input type="checkbox"/>	BIZVZ-SP V8 C12	12 MONTH CONSIGNMENT LICENSE FOR V8 BIZVZ	G795668919
<input type="checkbox"/>	BIZVZ-SP V9 C12	12 MONTH CONSIGNMENT LICENSE FOR V9 BIZVZ	G795668919

Enter Site Code of the PC : 536E 2ACB B4EB C1D4 0123 440F FDB9 F8

11. Review the license information before proceeding. Click on "Generate Key" to issue the new Site Key.

Home > Software License > New License

New License

You requested to have the products below be registered to the following Site Code:

54B3 AE27 40AD ADE7 D5

Product Key	Product Description	PRegNo	GRegNo
GEN64-v10.5 TEST LAB	v10.5 LICENSE	PN888113111111543	QNCER805A83AB65F45

Total BizViz/GEN32 Point Counts :0
 Total GEN64 Point Count: 100000
 Total Hyper Historian Point Count: 100000
 License Days:30

12. The next page will show you a summary of what will be your license, as well as your Site Key and License File.

Home > Software License > New License

The following License File has been assigned to your system for use in license activation. Use the License File inside the ICONICS Software Licensing Utility. Please keep the Site Key for future reference purposes.

Site Code: 54B3 AE27 40AD ADE7 D5
 Site Key: 1B44 954F E61A 79ED 5FFA 6610 7C

Download the following **LICENSE FILE** to authorize your license
[Click here to download](#)

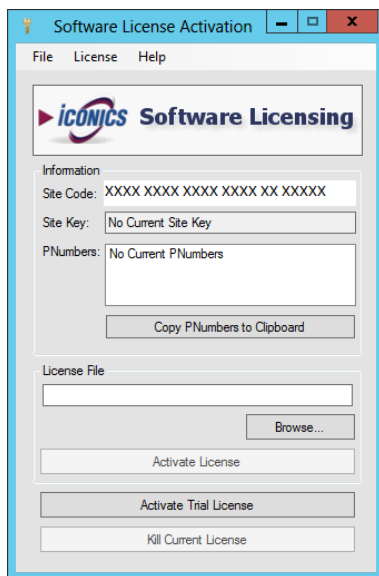

Registered Products

Product Key	Product Description	Order Date	Order #	PIregNo	GIregNo	Customer Key
OEN64-v10.5 TEST LAB	v10.5 LICENSE	12February2010:29549HG	PN8881113111111543	ONDE8805A83AB69F45	CUS02266	

We recommend that you print this screen for your records. Use the print friendly button on the left.
 An email has been sent to your email account with the above information.

Thank you for choosing ICONICS.

13. Download the license file (*.glic) by clicking on the link. You will need this file to license the machine.
NOTE: If you misplace the file after receiving it, you can use the View License link with your Product Registration Number to download it again.
14. In the Software License Activation Utility, click on the "Browse" button and look for the license file that you downloaded from ICONICS website.
15. Once you have selected the file and the License File textbox shows the file path, click on the "Activate License" button.
16. You should then receive a popup message indicating the status of the license activation. You can click on "OK" to close the dialog.
17. The Software License Activation Utility should now show the current license information, similar to the following image.

18. Notice that the Site Code may change, as expected, but the Site Key should be the same one you saw on the website.

4.4.2 Adding to an Existing Software License

1. Go to <http://www.iconics.com/supportworx> and launch the Web Licensing Utility Site by clicking on the "License Product" link on the right side of the page.
2. Once you have logged into the website and accessed the Software License main page, click on the "Add to License" link in the top navigation bar.
3. Enter your Existing Site Key, Product Registration Numbers and Customer Keys, then click "Next".

4. In the next screen, you will see a summary of the current license and a list of products that are available for you to add to the existing license. Check all the products that you would like to license. Copy the Site Code from the License Utility of the destination machine and paste it into the Site Code text box of the current web page, then click "Next".

- Review the license information before proceeding. Select “Generate Key” as shown in the following image.

The screenshot shows a web application window titled "Add To License". It contains a "Current License Summary" section with a table of existing licenses. Below this, it lists "Product Genesis Users : 2", "Total SCU's : 1065", and "Total Point Counts : 128000". A section titled "Product(s) to Add" shows a requested Site Code and a table of new products to be added. At the bottom, it shows "Total Values" for users, SCU's, and point counts. Navigation buttons "Previous" and "Generate Key" are at the bottom right.

Add To License

Total Values:

Product Genesis Users : 2
Mobile Users : 32
Total SCU's : 1275
Total Point Counts : 128000

Previous Generate Key

- The next screen will display the new Site Key and the link to your license file. Follow steps 13 to 18 from 4.4.1.1 “Issuing a New Software License” to complete the licensing process.

4.4.3 Upgrading a Software License Key

There are four basic steps when it comes to upgrading a license via the Web Licensing Utility:

- Step 1: Kill the older version license and credit it on our website
- Step 2: Upgrade the license on our website
- Step 3: Uninstall the older version of software and install the newer version
- Step 4: License the newer version

The order in which you do Step 2 and Step 3 does not matter.

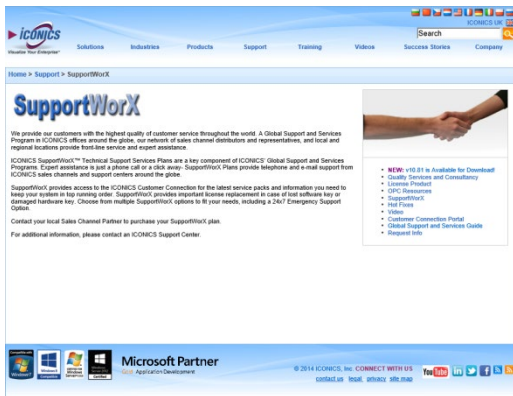

4.4.3.1 Killing a License via the ICONICS Web Licensing Utility

See Section 4.2.4 “Killing a Software Key License” for the initial steps on how to kill a license within the Licensing Utility (Software License Activation for .NET) provided on the Analytix DVD. Be sure to take note of the Site Key and Kill Confirmation Code. This information is necessary to put the license back on the ICONICS website. NOTE: This information is also in the KillCode*.TXT file.

[* = Site Key that was killed.]

Once you have the Kill Code, follow these additional steps:

1. Go to <http://www.iconics.com/supportworx> and launch the Web Licensing Utility Site by clicking on the “License Product” link on the right side of the page.

2. The main page of the Web Licensing Utility will load. Click on the “Software” button to access the Software License Options.

3. You will be required to log in to access the Software License Options. Enter your email address and password and click on the “LOGIN” button. If you do not yet have an account, you can create one by clicking on the “Create New Account” link near the bottom of the page.

4. Click on the “Kill License” link in the top navigation bar.
5. Copy the Site Key from the KillCode*.TXT file into the Site Key field on the web page, then copy the Kill Confirmation Code into the Kill Code field on the web page. Next, click on the “Remove Key” button on the web page.

Home > Software License > Kill License

Kill License

Please enter the Site Key to be credited and the associated Kill Confirmation Code.

Please enter Site Key and Kill Code exactly as shown in KILL.TXT file, including spaces.

Site Key: 1B44 954F E61A 79ED 5FFA 6610 7C

Kill Code: 6D57 CEFB F8FE 05B6 BD53 7A08 4ED5 EA

To remove a license for GENESIS32, do the following:

1. Click on Start, Programs, ICONICS Software License, and select License Utility.
2. Select the Kill License command from the Actions menu.
3. Enter your name, date and the password “1234” (lower case) into the dialog box; then click the OK button. The License Utility generates a dialog box containing your Site Key and the associated Kill Code and stores this information to the KILL.TXT file in %SystemDrive%\Program Files\ICONICS\soflic.
4. Enter your Site Key and Kill Code into the text boxes above; then click the Remove Key button.

To remove a license for GENESIS64, do the following:

1. Click on Start, Programs, ICONICS GENESIS64, Licensing Utility.
2. Click the Kill License button on the main panel and click OK.
3. The License Utility generates a dialog box containing your Site Key and the associated Kill Code and stores this information to the KILLCode.txt file on your current desktop.
4. Enter your Site Key and Kill Code into the text boxes above; then click the Remove Key button.

[Remove Key](#)

6. You will get a message confirming that the Site Key has been successfully deleted as shown in the image below. The products associated with the deleted Site Key will now be available to be re-licensed.

Home > Software License > Kill License

Kill License

Site Key successfully deleted

Site Key: 1B44 954F E61A 79ED 5FFA 6610 7C

Kill Code: 6D57 CEFB F8FE 05B6 BD53 7A08 4ED5 EA

The following products are again available to you for registration:

Available Products						
Product Key	Product Description	Order Date	Order #	PRegNo	GRegNo	Customer Key
GEN64-v10.5 TEST LAB	v10.5 LICENSE	12/February/2010 29549H2	PN888113111111543	ONDE8805A83AB65F45		CUS02268

We recommend that you print this screen for your records. Use the print friendly button on the left.
An email has been sent to your email account with the above information.

Thank you for choosing ICONICS.

4.4.3.2 Upgrading the License on ICONICS Website

See Section 4.2.4 “Killing a Software Key License” for the initial steps on how to kill a license within the Licensing Utility (Software License Activation for .NET) provided on the Analytix DVD. Be sure to take note of the Site Key and Kill Confirmation Code. This information is necessary to put the license back on the ICONICS website. NOTE: This information is also in the KillCode*.TXT file.
[* = Site Key that was killed.]

1. After you have copied your Site Key and Kill Confirmation Code in the previous step (either physically or electronically), you can now visit <http://www.iconics.com/supportworx>.

2. Next, click on the “License Product” link. This opens a new Web page, as shown below.

- Click on the “Software” button to proceed. You will then be required to enter your email address and password for the site, as shown below. If you do not already have a login for this page, click on the “Create New Account” link near the bottom of the page.

- Once you have logged in, click on the “Kill License” link in the top navigation bar.
- Next, fill in your Site Key and Kill Code information that you copied while killing your previous license (see 4.2.4 “Killing a Software Key License”).

Kill License

Please enter the Site Key to be credited and the associated Kill Confirmation Code.
Please enter Site Key and Kill Code exactly as shown in KILL.TXT file, including spaces.

Site Key:	<input type="text" value="250C 3CDD 0524 B262 20B3 456F D438 85C5 B799 0B"/>
Kill Code:	<input type="text" value="CB1E B52F 8984 0B87 F679 6767 89A3 DDEF 01C0 24B0 28EF 99"/>

To remove a license for GENESIS32, do the following:

- Click on Start, Programs, ICONICS Software License, and select License Utility.
- Select the Kill License command from the Actions menu.
- Enter your name, date and the password “fisk” (lower case) into the dialog box; then click the OK button. The License Utility generates a dialog box containing your Site Key and the associated Kill Code and stores this information to the KILL.TXT file in %SystemDrive%\Program Files\ICONICS\SoftLc.
- Enter your Site Key and Kill Code into the text boxes above; then click the Remove Key button.

To remove a license for GENESIS64, do the following:

- Click on Start, Programs, ICONICS GENESIS64, Licensing Utility.
- Click the Kill License button on the main panel and click “OK”.
- The License Utility generates a dialog box containing your Site Key and the associated Kill Code and stores this information to the KillCode.txt file on your current desktop.
- Enter your Site Key and Kill Code into the text boxes above; then click the Remove Key button.

6. Once you kill the license on ICONICS' website, you will receive an email containing the following information:
- Site Key
 - Kill Code
 - Product for which you have killed the license

The web page itself should now look similar to the figure below.

Home > Software License > Kill License

Kill License

Site Key successfully deleted

Site Key: 250C 3CDD 0524 B282 2DB3 456F D438 85C5 B799 0B
Kill Code: CB1E B52F B984 0B87 F679 6767 B9A3 DDEF 01C0 24B0 28EF 99

If products in this license are eligible, they may be upgraded to the latest version [here](#).

The following products are again available to you for registration:

Available Products

Product Key	Product Description	Order Date	Order #	PRegNo	GRegNo	Customer Key
GEN32VS-5000	V8 GEN32 RUNTIME 5000 PT - 1 USER	12/February/2010	29549HQ	PN21111111111111111111	OND123456789123456	CU502266

We recommend that you print this screen for your records. Use the print friendly button on the left.
An email has been sent to your email account with the above information.

Thank you for choosing ICONICS.

7. At this point, you have completed killing the license. Notice that in the final "Kill License" page, as shown above, it states that if the license is eligible, it can be upgraded to the latest version and it provides a link for availability.

4.4.3.3 Checking License Upgrade Availability

The easiest way to check if your license is available for an upgrade is by clicking the link on the page immediately after you kill the license. Clicking the link brings you to the Upgrade License page. You can also get to this page by clicking on the “Upgrade License” link in the tree control (third item).

Follow these steps to upgrade your license.

1. On the Upgrade License page, fill in your Product Registration Number and Customer Key. This is the same information you received in the web page and in your email after you have killed the license on our website.
2. Click on “Next” when you have filled in the necessary information.
3. If the license is available for an upgrade, you will see the available license on the page.

Upgrade License

Below are the product(s) that you have purchased that are available for upgrade.

To upgrade product(s), do the following:

1. Enable the check box(es) next to the product name(s) that you would like to upgrade.
2. Click the Next button to continue.

Available Licenses					
Select	Product Key	Product Description	PRegNo	GRegNo	Status
<input checked="" type="checkbox"/>	GEN32VB-5000	VB GEN32 RUNTIME 5000 PT - 1 USER	PNQ1111111111111111	QND123456789123456	Available

Previous
Next

4. Notice that the Product Description here shows a different product with an earlier version license (Version 8). Yours should reflect the license you have for your product. Check the available product that you would like to upgrade and click on “Next”.
5. The next page is a confirmation page. Check that the information shown is correct and click on the “Upgrade” button to proceed.

6. On the new page that loads next, you can see a list of upgraded products. Notice that the Product Description shows a license for a later version product (Version 9.2) instead of the earlier one (Version 8).

Home > General Information > Upgrade License

The following products have been successfully upgraded:

Product Key	Product Description	Order Date	Order #	PIRegNo	GRRegNo	Customer Key
GEN32/V92-5000	V9.2 GEN32 RUNTIME 5000 PT - 1 USER	12/February/2010	29549HQ	PIR21111111111111111111	GND123456789123456	CUS02266

We recommend that you print this screen for your records. Use the print friendly button on the left.
An email has been sent to your email account with the above information.

Thank you for choosing ICONICS.

7. You should also receive an email with the license upgrade information.

4.4.4 Upgrading a Hardware Key License

Upgrading a hardware key license is similar to upgrading the software key license. You would follow the exact same procedure as upgrading a software license. In the case of a Hardware key License though, you will need the USB dongle in order to kill the license from it and put the new one onto the key.

4.4.5 Licensing the New Version

Now that you have upgraded the license, you can follow the regular procedure to license your machine with the new version. When it asks you for the Product Registration Number and the Customer Key, you can provide the same one. This information was sent to you in the last step of upgrading your license via email. If you need more information on how to license the machine with the upgraded license, please consult our application notes titled *Licensing – Using the ICONICS Web License Utility for Software Key Licenses* and *Licensing – Using the ICONICS Web License Utility for Hardware Key Licenses*, as it pertains to your individual situation. These Application Notes and more can be found via the Info Center on the AnalytiX DVD.

4.5 Cloud Licensing

4.5.1 How Cloud Licensing Works

ICONICS Cloud Licensing is a means of licensing ICONICS products that is specifically designed for applications running on public cloud, private cloud, or virtualized environments. Rather than maintaining the license locally on the machine, licenses are hosted by ICONICS on a publicly-accessible data center.

During normal operations of the licensed machine, the first action it takes when starting up is to request the license information according to its License Pool ID. This request requires the machine to have access to the internet in order to request the information from the ICONICS cloud licensing server.

Once the license information has been successfully retrieved, the machine continues to operate using the licensing information retrieved from the web. The machine then periodically checks with the ICONICS Cloud Licensing server in order to validate the license. If it cannot validate the license for an extended period of time, the machine license will fail.

4.5.2 Issuing a New Cloud License

Follow these instructions to activate a license on a machine that currently has no license on it, or has a license on it that you want to overwrite.

If your machine already has a license on it and you are looking to add another license to it, see the next section entitled, “Adding to an Existing Cloud License”.

1. Go to <http://www.iconics.com/support> and click the “License Your Product” link on the right.
2. In the new page that appears, select “Cloud” and log in with your username and password.

Note: If you do not have a username and password pair, you can register for one using the “Create New Account” link at the bottom of the window. If you have a username and password but have forgotten them, you can click on the “Forgot Password” link at the bottom of the window.

3. Once you have logged into the website, click on the “New License” link at the top.
4. Enter your Product Registration Number(s) and Customer Key(s) for the products.

Note: Your Product Registration Number(s) and Customer Key(s) are usually inside the DVD tin package that ICONICS sent when the product was purchased.

5. Click the “Next” button once you have entered all of your Product Registration Number(s).
6. Choose an existing end user or enter new end user information. Click “Next” when done.

Note: The existing end user dialog may take a few moments to appear. Please be patient.

7. On the next screen, you see a list of the products that are available for you to license. Check all the products that you would like to license on this machine. Click “Next”.
8. This page shows you a summary of what is in your license. Check to make sure everything is correct, then click on the “Generate Key” button. A page similar to the following image appears.

New License

The following License Pool has been assigned to your system for use in license activation.
Use the License Pool inside ICONICS Platform Services Configuration.
Please keep the License Pool for future reference purposes.

License Pool: **A64F9EF1-D289-4386-A34D-637CD4857ADD**

Registered Products

Product Key	Product Description	Order Date	Order #	P Number	G Number	Customer Key	32-bit Version/num	64-bit Version/num
IC0360-SIP 30DAY	1 MONTH LICENSE FOR IC0360-SIP	25/Oct/2014	55351HQ	PN1284C8D08AECF41		CU502266	0.35	10.85

We recommend that you print this screen for your records. Use the print friendly button on the left.
An email has been sent to your email account with the above information.

Thank you for choosing ICONICS.

4.5.3 Activating the License

1. Open the "Platform Services Configuration" application by going to **Start > Programs > ICONICS > Tools > Platform Services Configuration**.
2. Select the "License" tab.
3. Select the radio button for "Cloud License" and enter the "License Pool" code that was provided by the Web License Utility. You can leave the "Password" blank.
4. Restart the FrameWorX64 Service.

4.5.4 Adding an Existing Cloud License

1. Go to <http://www.iconics.com/support> and click the "License Product" link on the right.
2. In the new page that appears, select **Cloud** and log in with your user name and password.
3. Once you have logged into the website, click on the "Add to License" link at the top.

Note: It is very important to pick "Add to License" and not "New License". Picking "New License" overwrites any existing license already activated on this machine. Make sure to pick "Add to License" if you are adding products to a machine that already has a license on it.

4. Enter your existing License Pool ID and the Product Registration Number(s), and Customer Key(s) for the new products.

Note: Your Product Registration Number(s) and Customer Key(s) are usually inside the DVD tin package that ICONICS sent when the product was purchased.

5. Click the “Next” button once you have entered all of your Product Registration Number(s).
6. Choose an existing end user or enter new end user information.
Click “Next” when done.

Note: The existing end user dialog may take a few moments to appear. Please be patient.

7. In the next screen, you see a list of the products that are available for you to license. Check all the products that you would like to license on this machine.
Click “Next”.
8. This page shows you a summary of what is in your license. Check to make sure everything is correct, then click on the “Generate Key” button.

4.5.5 Killing a Cloud License

1. Go to <http://www.iconics.com/support> and click the “License Product” link on the right. Select the “License” tab.
2. In the new page that comes up, select “Cloud” and log in with your username and password.
3. Once you have logged into the website, click on the “Kill License” link at the top. A page similar to the following figure appears.

Kill License

Please enter the License Pool to be removed and credited.

License Pool:

To remove a Cloud License for GENESIS64, do the following:

1. Click on Start, Programs, ICONICS, Tools, Platform Services Configuration
2. Click the License tab and copy the License Pool.
3. Enter your License Pool into the text box above; then click the Remove Pool button.

Remove Pool

4. Enter your License Pool ID into the prompt. Click "Remove Pool".
5. A message confirming that the license has been successfully removed appears. You will also receive an email with the killed license information. The products associated with this License Pool are now safely parked on the website and available to be re-licensed at any time.

4.6 Demo Mode

Without a valid license installed in your PC, it is still possible to use AnalytiX in Runtime mode. The software will check for a valid hardware or software license key on initialization. If none is found, GENESIS64 runs in Demo Mode, which limits you to:

- Twelve hours of runtime
- Only 64 OPC tag connections (points) can be updated

Running AnalytiX longer than the 12-hour limit generates a message stating that the demo time has been exceeded. You must then exit AnalytiX and reboot the PC. On restarting AnalytiX, you will get another 12-hour block of time in which to run. If there are more than 64 tags on a particular screen, gray keys (or whatever is configured as the Point Failure character) will appear in place of the actual I/O data.

5 *HELP AND TECHNICAL SUPPORT*

5.1 Help Documentation

ICONICS software provides online help with descriptions and explanations of each application. Help is available throughout ICONICS Suite. You can access help in the following ways:

- Click the Help  icon in the Workbench. This opens the help file for that application. To search for a topic in the help file, click the Index tab or the Search tab. Type or select the term you want to find, and then click the topic you want to read.
- Press the **F1** key to display context-sensitive help.
- Click the **Help** button in any dialog box to display context-sensitive help for that dialog box.
- Move the mouse pointer over an icon and pause for a moment to display pop-up ToolTips for quick help.
- From the Windows **Start** menu, select **All Programs > ICONICS Help > Help**

5.2 Product Videos

A new feature of the Customer Connection Portal is the in-depth training videos highlighting many ICONICS products. These videos help users configure their systems using best practices. Starting with a Quick Start series introducing each module in GENESIS64, these videos provide brief overviews and demonstrations of how to use ICONICS products. Send us your suggestion for topics to cover!

5.3 Training Classes

Training classes are held regularly at the ICONICS training facility in Foxborough, Massachusetts. To reserve seats in training courses and to view the current ICONICS training schedule, go to <http://www.iconics.com/Training.aspx>. If you have any questions about ICONICS training, please contact our training coordinator at 508-543-8600.

5.4 Technical Support

ICONICS customers may obtain technical support in several different ways. First-line Support is through your local ICONICS representative or distributor. You may also contact ICONICS' Support Engineers directly by phone, email or the Customer Connection Portal (<https://getconnected.iconics.com>).

For complete information about Global Technical Support, please see the Global Support and Services User Guide at <http://www.iconics.com/supportworx>.

5.4.1 Global Support and Services

ICONICS is proud to provide our customers with the highest quality customer service. Our Global Support and Services programs are supported by ICONICS offices around the globe and our network of sales channel distributors and representatives, with local and regional locations for front-line service and expert assistance. Programs include the **SupportWorX™** Technical Support Services subscription program for continuous technical support; **Quality Professional Services** for expert system architecture design assistance, training and start-up assistance; a **24 x 7 Emergency Support Option** plan; and **Training and Certification** programs for ICONICS users, systems integrators and sales channels.

For complete information about SupportWorX service plans and technical support, please see the Global Support and Services User Guide at: <http://www.iconics.com/supportworx>.

5.4.2 Customer Connection Portal

Get connected with ICONICS by visiting the Customer Connection Portal for general support, product downloads, product updates, customer collaboration and product tips from ICONICS' engineers and support team. The Customer Connection Portal features Support Solutions, a Support Bulletin, product videos, app notes, and whitepapers. The Support Solutions section addresses essential questions through the FAQ, Licensing, and a Global Search Engine, enabling users to find answers quickly and easily.

The Support Bulletin lists your support cases with real-time status updates along with popular knowledgebase articles and the most active forum threads. If users are current on their SupportWorX software maintenance plan, they are entitled to free upgrades. Download the latest product updates and new product releases from the Customer Connection Portal or sign up for the Beta program to try select features before they are officially released

5.4.3 Telephone Support

ICONICS support centers are open Monday through Friday, year round, except for local holidays and ICONICS holidays. Support handles calls on a first-come, first-served basis during the business hours below.

Americas (United States): 1-508-543-8600	8:00 AM – 6:00 PM Eastern Standard Time
Europe (Czech Republic): + 420-377-183-420	9:00 AM – 5:00 PM European Central Time
Asia Pacific (Australia): + 61-2-9605 1333	9:00 AM – 5:00 PM Australian Eastern Time

Please have the following available when you call:

- Your SupportWorX Plan Number.
- A PC available for tests and diagnostics.
- A clear understanding about the issue.
- The version of your OS and the ICONICS product(s).
- OPC server or relevant third-party software info.

Note: Go to

<https://getconnected.iconics.com/ICONICS/Support/GetSupport.aspx> to contact our Technical Support department.

Email Support

The ICONICS support center email addresses are:

- **North America:** Support@ICONICS.com
- **Europe:** EuropeSupport@ICONICS.com
- **Pacific Rim:** PacificRimSupport@ICONICS.com

Please include your SupportWorX Plan Number when sending your message. Email requests will be answered on a first-come, first-served basis typically the same day.
